50 CENTS PER MONTH

END WAR, MOB CRY AS HINDENBURG LEAVES BERLIN

Hundreds In Exiled I. W. W. Army Proven Patriots

FACTS BARED IN INVESTIGATION AT COLUMBUS STARTLING

Scores of Bisbee Owners of Property Are Driven From Their Homes
MANY CONTRIBUTED TO RED CROSS FUND
Scarcely Third of Deported Industrialists Are Mexicans

GLOBE, Ariz., July 16.—The body of Mark Cafado, U. S. trooper of Troop K, Seventeenth Cavalry, was found here early today lying on the railroad track near the city limits. Authorities advance two theories—one that Cafado was murdered, his throat being cut. The body was placed on the track to cover up the crime, it is believed. Another theory is that Cafado was killed near the Old Dominion mine picket line. He was slugged, this theory would have it, and carried to the track where the lacerated throat was inflicted by a train running over the body. A coroner's inquest will be held shortly. Feeling runs high here as the result of the alleged murder.

COLUMBUS, N. M., July 16.—Property owners, men with wives and families, citizens who subscribed to the Liberty loan and Red Cross war fund with substantial sums, ex-soldiers and sailors and men who are registered for draft and service abroad with a Red Cross unit—these hold a large place in the personnel of the I. W. W. exiles "interned" here today, according to figures compiled for army authorities.

At the request of army officers here, leaders of the exiled band began a census of names, occupations, citizenship, etc. It revealed astounding conditions heretofore unthought of, according to persons conversant with the situation.

617 Pledged War Coin
Of the 1150 exiles in the big "internment" camp today 433 are married and 309 have children. Two hundred and fifty-six own property in Bisbee and were driven from their homes or property. Part of Uncle Sam's over-subscribed "Liberty loan" was contributed to by 202 of these people here and 515 subscribed to the Red Cross war fund. Sixty-two have seen service with the army as regular soldiers and almost an equal number have been "jacksies" in the navy. Four hundred and sixty-six registered for the draft.

Scarcely one-third of the deported I. W. W.'s are Mexicans. Six of the refugees were to have gotten naturalization papers today to join Mayor Bowker of Bisbee in his company of Red Cross which leaves shortly for Europe. Efforts have been made to get these men back to Bisbee so that their patriotism should at least have the reward of fulfillment. Fearing for their lives, they prefer to stay here, they declare.

Bought \$1500 U. S. Bonds
Ilija Luka Gobowich, restaurant owner, is the heaviest subscriber to the Liberty loan. Gobowich bought \$1500 worth of bonds with his savings and gave \$25 to the Red Cross. He is not an I. W. W., he insists, but was taken nevertheless from his business at the point of a gun.

"I was forced to leave \$150 in the cash register and 200 pounds of meat hanging in the meat house, yet to be cooked," he said bitterly. "Meat in my ovens burned up, I guess, because the posse would not permit me time to drag it from the stove."

Spiro L. Vukovich, Gobowich's partner, is also interned here. He, too, subscribed to the Liberty loan, \$400 worth. Seven thousand dollars worth of goods was left in the basement, he said. Both he and his partner have been residents of Bisbee eleven years, they declare.

Short of Funds
Exile of the men and their "internment" in Columbus is not the sole complication that confronts a large number of these people, it was learned today. Many families are short of funds, in Bisbee.

"Unless some quick provision is made to care for the families of these

Teuton Gold Linked With I. W. W. Rioting As U. S. Sifts Rumor

WASHINGTON, July 16.—Evidence that millions in gold are still pouring into the United States for effective propaganda work among Americans has been laid before the state department by a statesman of international reputation. This man said today: "German controlled newspapers are being operated under the very noses of American officials. The condition is country-wide. The machinations of the Teutons are steeped in hatred and a dangerous situation exists. Religious houses of worship are being used and societies are being polluted. Unless the heel is stamped on the serpent's head serious troubles are threatened in America."

WASHINGTON, July 16.—Interest of German rioters and inciters among I. W. W. in Arizona and Montana was today reported to the department of justice. Men who were arrested are unofficially accused of complicity in a German plot. They will be held under the alien enemy act for examination. In the future all I. W. W.'s will be held as anarchists and imprisoned until some connection can be established between the central organization behind the trouble and German paid propaganda, which government agents feel sure will be uncovered.

MIAMI, Fla., July 16.—Twenty I. W. W.'s, arrested here were today found to have a big supply of money, averaging \$800 each. Authorities point to this as confirming their belief that German money is behind the disturbances and plotting. Twenty Cubans coming here were arrested and jailed by the authorities. They are said to be believed to be members of a German cabal to stir up trouble. A federal investigation opened today.

DETECTIVE KILLED BY WEALTHY L. A. BROKER

LOS ANGELES, July 16.—William H. Cole, wealthy stockbroker, is in jail today charged with the murder of O. C. Firmin, one of two detectives who, with Mrs. Cole, Mrs. Firmin, and C. D. French, Cole's brother-in-law, raided an apartment last night in which were Cole and Misses Eva and Jean Chapman, cousins. Fire from Cole's revolver also wounded French, the police declare.

Gun firing started as soon as the raiding party entered the apartment, headed by Mrs. Cole, who, it is alleged, had grown suspicious of her husband's relations with Miss Eva Chapman.

Immediately after the shooting, Cole, blood streaming from a wound in the forehead, leaped over the dead body of Firmin and fled to his home. Here, the police assert, he defied capture with revolvers. Finally an old friend persuaded him to surrender.

S. S. KRISTIANIAFJORD CARGO BEING SAVED

ST. JOHNS, N. F., July 16.—While a number of tugs and other vessels stood by ready to render aid, the crew of the 10,000-ton Norwegian-American liner Kristianfjord today began lightening the cargo in an effort to refloat the steamer which went on the rocks near Cape Race Sunday.

All of the 900 passengers have been taken off the Kristianfjord without accident. Messages from Cape Race say the steamer is not hopelessly damaged, although three of her holds were full of water.

The Kristianfjord left an American port July 7, bound for Norway. Heinrich Schauffhausen, a representative of Count Von Bernstorff, former German ambassador to the United States, was among the passengers, having been deported by the State Department.

DANISH AXLE GREASE OILS TEUTONS GUNS

SAN FRANCISCO, July 16.—Axle grease intended to keep Denmark's railway cars in running order is being used to lubricate Germany's machine guns, according to Theodore Weber, Danish naval architect, who is in San Francisco today.

Many Danish cars in course of trade cross the line into Germany. Invariably they leave Denmark well greased. But when they return their boxes are rummaged and many a train is stalled. Weber says that while the cars are in Germany, the Teutons scrape the grease from the car axles to help fill up the German shortage of lubricants.

YANKEE KILLED AND 2 HURT BY SUBMARINE

WASHINGTON, July 16.—Three men were killed, including one American, and five men, including two American guards, were injured in the submerging of the American steamer Grace, owned by the Standard Commercial Steamship Corporation, New York, the statement announced today.

STATE H. S. TEACHERS MEET AT BERKELEY

BERKELEY, Cal., July 16.—War's influence is being felt by the California high school teachers association convention this year. Making high schools fit war conditions will be a big topic for consideration during the five days of meetings which began this morning.

"Reorganization and democratization of the public school system" was the first topic discussed, John Franklin Engle of Auburn, president of the association, being the speaker. Nearly 4000 teachers are in attendance.

BERKELEY, July 16.—High school teachers from all parts of California are in attendance at the annual convention of the California High School Teachers' Association which opened here this morning. In addition to addresses by leading educators of the county various departments of the association will meet during the week of the convention, to discuss special phases of the teacher's work.

Dr. E. R. Hedrick of the University of Missouri, Dr. C. E. Seashore of the University of Iowa, Prof. A. F. Lange of the University of California, Thomas H. Reed, city manager of San Jose, and James Huff McCurdy, director of the International Y. M. C. A. Training School at Springfield, Mass., are among the speakers who will be in attendance.

WIFE ARRESTS SPOUSE AND 'OTHER WOMAN'

SAN FRANCISCO, July 16.—B. C. Bittrick, Stockton traveling salesman, is at the city jail today charged with bigamy, and a woman who says she is Florence Bittrick, his wife, is held for vagrancy, both on complaint of Mrs. Marie Bittrick of Stockton. Mrs. Marie Bittrick came to San Francisco Saturday with her two children, after finding notes signed "Florence" in her husband's clothing. She called for Bittrick at the Hotel Statler and when he refused to leave his room, she summoned the police, who found Bittrick in company with "the other woman."

SHELL OIL COMPANY GIVEN U. S. CONTRACT

SACRAMENTO, July 16.—W. G. McMillin, state purchasing agent, has announced that the Shell Oil Company of California has been awarded the contract for furnishing 5000 barrels of oil monthly to the State Harbor Commission at San Francisco. The contract price is \$1.44½ per barrel.

LADIES' HIBERNIAN ORDER OPENS MEET

SAN FRANCISCO, July 16.—Members of the California Ladies' Auxiliary of the Ancient Order of Hibernians are gathered here today for the opening of their annual convention. The convention will remain in session until Friday.

WILSON'S DEATH PLOTTED IN BIG ANTI-DRAFT CONSPIRACY

U. S. Sleuths Bare Giant Ring to Defeat Selective Service; Man Arrested

CHICAGO, July 16.—A huge anti-draft plot, including threats to assassinate President Wilson was today uncovered through the arrest by federal officials of John Netchky, accused of promoting the Self Defense League.

A secret service man posing as a member of the league is said to have obtained a statement from Netchky that "if they draft you, when you get to the trenches, kill the officers and surrender to the Germans. If my brother is drafted and killed then I will kill Wilson. If I am drafted and killed then my brother will kill Wilson. More arrests are expected."

WASHINGTON, July 16.—With only twelve states yet to report "ready," war department officials today hoped the great draft lottery might be held Saturday. A burst of over-Sunday speed filled the department cabinets with nearly 4000 draft rolls—more than 8,000,000 names of men eligible for democracy's armies.

Unless there is unlooked-for delay, the drawing will be held not later than the first of next week.

Within twenty-four hours after the drawing, the district exemption boards will begin cutting out men disqualified by physical grounds and exempted by the mandatory regulations.

They are allowed only a specified number of days to make each move. The regulations will allow no dallying.

Here are the steps outlined by the provost marshal general's office and the time allowed for them:

Seven Days Allowed
After the physical examination, the drafted man must file his claim for exemption, if any, within seven days. He then has ten days to file affidavits to support his claim.

Then the local board must decide on the claim in three days. Within two days thereafter the board must post a list of the men and the disposition of the case.

Ten days are allowed to file an appeal to the upper or appellate board and five days more are allowed to file additional affidavits of evidence to support the claim.

The appeal board is given five days to pass upon the claim and mail notice that the claim is good or claimant must go to a mobilization camp. The time limits are set to get men into the camps at the earliest possible moment.

3 State Boards Named

Nominations for all appellate boards are before President Wilson. Although yet unannounced, boards in three states have been appointed. Many men named for places are nationally known.

BROKE INTO GASOLINE STATION, STOLE TANK

Some one broke into the Minnix gas station, Main and Santa Clara, Friday night and stole a prest-o-lite tank.

German Crisis Is Believed At End As Kaiser Prepares For Giant Smash In Russia

WASHINGTON, July 16.—German troops have been withdrawn in large numbers from the Italian and French fronts and sent to Riga to start a great offensive against Russia, according to embassy reports today. The Russian Baltic fleet is being prepared to resist.

LONDON, July 16.—The most terrible bombardment that Germany has yet concentrated against the French lines is progressing today in a German attempt to force back General Petain's troops from their new positions around Moronville, which has been taken by the French. Dispatches detailed the capture of Moronville by means of a new kind of surprise attack. After savage artillery duels and fearful fighting, it is indicated by front messages that the Germans have been beaten back.

LONDON, July 16.—In the fall of Dr. von Bethmann-Hollweg and the appointment of Dr. Michaelis as the Imperial German chancellor, English papers here today see only far distant the time for the uprising in Germany which will sweep away autocracy. The new German chancellor is called a Prussian bureaucrat and is expected by the British press to do the bidding of the Kaiser.

The papers are agreed that the German crisis is ended, with the Kaiser and the army again supreme.

ROME, July 16.—Report of the Russian occupation of Dolina (in Galicia) was received here today. The Austrians, it was said, had been thrown back into the Carpathians.

Dolina is an important Galician center, 22 miles southeast of Stry and about 15 miles southeast of Kalusch. It is another of the key cities around Lemberg which lies thirty miles to the north.

Wilhelm Pins Faith to Firm Military Program, Experts' View At Washington

BY CARL D. GROAT
(United Press Staff Correspondent)
WASHINGTON, July 16.—Kaiser Wilhelm has staked his all on blood and iron after hearkening to his military men.

This is how international experts here today sized up the German situation with Bethmann-Hollweg out and the bureaucrat Michaelis, chancellor. The military men have told the Kaiser, according to information here, that Germany's military machine can win the war and he need not heed the growing clamor of those who want peace without annexation or indemnities. Resignation of Hollweg, the man who could straddle between the all-war junkers and the more peaceful social democrats and center party, indicate clearly to experts here that from now on there will be no compromising.

As authorities see it, Hindenburg and Ludendorff are to have carte blanche—and deliver the goods or take the consequences.

Kaiser's Program

The Kaiser's program will be to still the murmurings of the people by preaching the doctrines of his military men, and claiming that German arms will be victorious if the nation only hangs on. Michaelis faces a delicate situation. There is the peace resolution supported by the reichstag majority parties which will determine at the outset if he is to take his orders from the militarists or accept the reichstag situation, experts here expect the next great deed in the German internal crisis.

U. S. CONVOYS SANK 4 DIVERS, BERNE REPORT

BERNE, July 16.—American warships conveying the first American expeditionary army destroyed four of the latest type German submarines, according to a report in circulation here today and which purported to have originated in Germany.

SOLDIER DECORATES TOMBS OF NOTABLES

PARIS, June 25.—(By Mail.) One of the three American troops who carried the magnificent wreath of 500 roses to Picpus cemetery where General Pershing decorated the tomb of Lafayette on June 15, performed the same honor at the tomb of the Emperor of Japan. He helped shoulder the great wreath which ex-Secretary of State Knox placed on the Emperor's last resting place in 1912.

LINDA VISTA CAMP NAMED CAMP KEARNEY

SAN FRANCISCO, July 16.—The American Lake cantonment camp for the new troops of Uncle Sam's army has been officially named Camp Lewis. The Palo Alto camp will be Camp Fremont and the Linda Vista camp Camp Kearney.

No Evidence In London That Michaelis Favors Democracy More Than Hollweg

BY ARTHUR E. MANN
(United Press Staff Correspondent)

LONDON, July 16.—Appointment of Dr. George Michaelis as German chancellor has not appeased the reichstag reformists. All word reaching here today indicated that there was continued dissatisfaction over the fact that the elements in the German parliamentary body who forced Von Bethmann-Hollweg's fall were not consulted in the new chancellor's naming.

There is no evidence whatever to show that the new chancellor is any more inclined toward democracy than was his predecessor. New elements have now entered in the German crisis. The public entrance into politics of the German crown prince, Field Marshal von Hindenburg and Quartermaster General Ludendorff show the unveiled influence of the militarists sought to be exercised over the reichstag and other civil authorities in Germany.

All Premiers Out

With Bethmann-Hollweg's fall, the list of premiers of all belligerent nations who have been swept from their places during the war is complete. Every nation has now changed leaders. Hollweg was the last to go.

It is recalled here today that before the German break with America, Count von Bernstorff repeatedly declared in Washington that there "could be no peace until all the before-the-war premiers had retired."

The men who might be responsive to a public demand for peace, however, are not now in control in Germany.

FRENCH WIN DESPERATE CHAMPAGNE CLASH

PARIS, July 16.—Desperate fighting in the Champagne, in which powerful German attacks first progressed around Monts Haut and Teton, and then the tide changed and the French retook the captured positions, was detailed in today's official statement. Heavy losses were inflicted on the enemy.

"In the Champagne," the War Office said, "the Germans bombarded our positions violently and around Monts Haut and Teton launched powerful attacks on the positions which the French took Saturday."

"At first the enemy progressed on Mont Haut, but after an all-night battle the French retook their previous gains. The German losses were heavy."

"Between the Somme and the Aisne, German raids were repulsed. South of Corbeny, in vigorous fighting, the enemy was hurled back."

L. A. AQUEDUCT BREAKS ARE HELD SUSPICIOUS

LOS ANGELES, July 16.—"Circumstances which make me suspicious" is the manner in which Chief Engineer William Mulholland reports two breaks in the Los Angeles aqueduct today. One of the breaks is in the vicinity of Mojave, partly destroyed yesterday by fire said to have been laid to I. W. W.'s. An exhaustive probe of the breaks is being made.

German Internal Struggle Is Definitely Turned Upon Peace Terms Questions

AMSTERDAM, July 16.—The internal struggle in Germany today definitely turned upon the question of terms of peace.

The next step in the political fight which has held the attention of the world for the past week will come on the peace resolution put forward by the majority parties in the reichstag. The Lokal Anzeiger today reports a popular peace demonstration as having taken place upon the departure of Field Marshal von Hindenburg for grand headquarters, following his conference with the party leaders in Berlin.

A large crowd was on hand when the field marshal departed. Shouts immediately arose as Hindenburg appeared. "Give us a good peace," the crowd shouted. Then came cries from others of "give us an early peace."

Hindenburg silently saluted. The Vorwaerts, commenting on the majority's peace formula which broadly is a declaration of no annexations and no indemnities, declares: "Any chancellor must accept these principles."

Michaelis Reticent
As yet, Dr. Michaelis, the new chancellor, has made no statement of his policies. His position is unknown. But expressions from German newspapers received here today, generally are to the effect that the new chancellor must accept the reichstag majority's will. This is in spite of the interpretation of neutrals that the unseating of Von Bethmann-Hollweg was a victory for the crown prince and Von Hindenburg is pressing their relentless war programs.

The Frankfurter Zeitung declared: "Dr. Michaelis is Prussian in the best sense of the word, but is not particularly Prussian."

"If his selection is to benefit the fatherland, he must work with the majority. Whether he is in a position to do this is not known."

The Manneim Volkstimme, leading Socialist organ of Baden, promises Michaelis the support of the socialist democrats if he carries out the policies of the majority.

"Peace and freedom must be his program," declares the paper.

German Press at Sea

Dispatches from Berlin today indicated that German newspapers were just as much at sea on the guesses as to the new chancellor's policies as observers in neutral countries. Dr. Michaelis is lauded as fair minded and energetic and none of the editorials hazard any opinion on what he intends to do in Hindenburg's position. This was true, even of the outright junker newspapers. The belief was hazarded by several newspapers that Michaelis inclines more to the conservative than the radical wing.

It was significant that now that Hollweg has been retired, certain of the conservative organs do not hesitate to call his policies as "chancellor's personal," indicating the dissatisfaction of the junkerites with the course of compromise with which the former chancellor has long maintained his domination in Germany.

MONSTER REDUCTION SALE

So great is this sale in its proportions—So big is the opportunity—that we merely ask you to come and see for yourself. Your own eyes will prove better guides than pages of print.

Reinhaus Bros. always do just what they advertise and in this Sale we are really giving better values because we are selling merchandise at prices that cannot be duplicated again even at wholesale cost.

ANNUAL REDUCTION SALE

NATIONAL GUARD OF 11 STATES IN FRANCE BY OCTOBER 1

125,000 Men Mobilized Yesterday As First Step to Get Army of Million

WASHINGTON, July 16.—Comprising the first increment of militia to be called into the Federal service, approximately 125,000 National Guardsmen were mobilized under an executive order in eleven states, this being the first step taken by the Government to mobilize an army of a million men.
The men were called out yesterday. This means that it will be not later than October 1 before the majority of the men will be in France.
After being held in their state camps for several weeks the troops then will be sent to mobilization camps in the South. A short period of intensive training prior to their departure for Europe will then be given them.
The army war college has finished plans for the work which the men will be given. It has laid out a complete program for their use in the war. This program includes the exact time they will be held in mobilization camps and

the dates on which they will be sent overseas.

Meanwhile, the War and Navy departments are busy securing the transports for the men. It is expected that a great fleet sufficient to carry the forces the war college has decided upon, together with all their arms and equipment, will be ready on the appointed dates.

The forces ordered are only the first of three increments.

Others will follow on July 25 and August 5. On the latter date the entire militia establishment will be drafted into the Federal service and will stand on the same plane as the regular army.

Will Camp in South

The troops assembled today are: New York, which will go to Spangenburg, S. C.; Pennsylvania, which will camp at Augusta; Ohio and West Virginia, to Montgomery, Ala.; Michigan and Wisconsin, to Waco, Texas; Iowa, Minnesota, Nebraska, North Dakota and South Dakota, to Deming, N. M.

Each camp will accommodate a complete division. In the American army a division consists of about 30,000 men. After the troops are in camp, there is a possibility that divisions will be re-organized on the European basis of 15,000 to 20,000 men. Under this plan, the New York guard would make two divisions. But each camp would still have 30,000 men.

If the army is reorganized on the European division basis, a great number of vacancies will be created in higher ranks. Double the number of brigadier generals now required would be needed and there would be a moving up all through the army.

New Officers Needed

When the troops are in camp, at least fourteen brigadier generals will be required at any rate. Only two states—New York and Illinois—have full guard divisions with their own brigadier generals. Other divisions are made up from a number of states. A brigadier general to command each of these fourteen divisions will be required.

Recommendations for these positions have been made to President Wilson, who is expected to send the nominations to Congress for action by the time the troops reach camp. The impression here is that regular army officers now colonels and majors, will be selected.

The regiments that went to camp today were for the most part under strength, as is the entire national guard. To fill the ranks to war strength, 142,000 conscripts, to be selected through the draft, will be assigned to national guard regiments.

WAR COSTS STATE MORE FOR AUTO PLATES

SACRAMENTO, July 16.—War prices will have to be paid by the state this year for the automobile and motorcycle number plates needed by the state motor vehicle department.

Bids for the plates have just been received by State Purchasing Agent McMillin and the lowest bid for the auto plates is 21 cents each and for motor plates 18 cents.

Last year the state bought the auto plates for 12 1/2 cents each.

NO REFERENDUM OF TAX LIMIT LAW CAN BE HAD—WEBB

Attorney General Rules That Measure Is One That Cannot Be Stopped

The opinion of Attorney General U. S. Webb to the effect that the tax limit measure cannot be subjected to a referendum will not prevent the further filing of referendum petitions, most of which have already been filed with the various county clerks of the state.

The attorney general's opinion is not a court decision, but his opinion will probably prevent the action of state officers upon the measure.

Should the referendum adherents care to take the matter to court, a mandamus action might upset Webb's opinion.

Concerning the opinion, a Sacramento dispatch says:

"That the tax limitation law, passed at the last session of the legislature, cannot be held up by referendum proceedings is the ruling of Attorney General Webb's office, in an exhaustive opinion just rendered to the district attorney of Sonoma county.

"The act," concludes the attorney general's opinion, "is clearly one providing for tax levies within the meaning of section 1 of article 4 of the constitution, and is therefore excepted from that class of acts whose operation is suspended by that section for the purpose of the referendum.

"The time of the passage of the act is the day of its approval by the Governor. Chapter 729 having been approved on May 31 of this year, will therefore be in full force and effect on July 30 of this year."

"When informed of the ruling of the Attorney General's office, which, of course, quashes the referendum proceedings instituted by certain school officials, Hugh J. Baldwin, who for sixteen years was superintendent of schools for San Diego county and one of the best known educators of the state, declared that the ruling is a most fortunate one for the people of California.

"The tax limitation act is the best law for the protection of the taxpayers that has been enacted in recent years," declared Mr. Baldwin. "To attempt to kill it by means of the referendum was a stupendous blunder. That the attempt has failed ought to be a source of gratification to every person in California who wants to see a curb placed upon reckless spending of the people's money.

"It is also the best law for our public

lic schools that could possibly be devised. By eliminating waste and extravagance in all branches of county government it will make more money available for school purposes.

"The claim that under its provisions a hostile board of supervisors might attempt to restrict school revenues is too absurd for serious consideration. In the first place, no board of supervisors would be foolish enough to attempt to injure the schools, and in the second place the state board of authorization could swiftly bring them to time if such attempt were made.

"The law is very explicit and makes special provision for the protection of the schools. The language of the act shows how careful its framers were to protect the schools from possible harm."

CIVIL SERVICE EXAMS TO BE HELD IN S. F.

SAN FRANCISCO, July 16.—Federal civil service examinations for some thirty government positions are to be held in San Francisco soon, according to announcement by the civil service commission. The positions pay from \$1,000 to \$3,000 annually, with the exception of that of messenger boy in the navy department, which pays \$1.25 daily.

One of the list are: Schedule clerk, office of chief of ordinance; assistant traffic director; aeronautical mechanical draftsman; grain standardization specialists; mechanical draftsman; male and female inspectors, child labor division; child welfare expert, male and female; assistant in prevention of infant mortality; special agent, children's bureau; inspector clothing and equipment, army quartermaster's department; female index and catalogue clerk, bureau of ordinance; field agent, bureau of crop estimates; steam engineer; stable superintendent; fruit crop specialist, bureau of crop estimates; veterinarian; laboratory assistant, bureau of standards; captain of kelp harvester; messenger boy, navy department.

ALUMINUM DEMAND INCREASES, IS SHOWN

CHICAGO, July 16.—The United States will require 50,000 tons of aluminum a year for aeroplane and motor vehicle construction to carry on the war against Germany, according to Dr. F. C. Weber of Chicago, a chemist and experimental inventor.

This amount of aluminum, Weber says, cannot be obtained from bauxite, its present source. We must use kaolin, or fireclay, which the Germans have been using since their source of bauxite has been cut off. Weber says this country's supply of kaolin is practically inexhaustible. The largest deposits are in Illinois.

Weber has submitted his theory to the Society of Industrial Engineers, which in turn will take it up with the Council of National Defense.

BALBOA HAS DEEP MYSTERY IN WOMAN'S APPAREL

Finding of Clothes at Bath House Indicates Unknown Woman Drowned

BALBOA, July 16.—A mystery has developed at Balboa.

The finding of a woman's clothing in a room at the Ocean Front bathhouse has started the sleuths of Newport Beach on a search for the owner of the clothing. Whether the owner was drowned while bathing or left the clothes as a blind to a planned disappearance has not been developed.

The clothing is that of a woman about 5 feet, 6 inches tall, and of a character that would indicate that the owner was not in the very best of circumstances.

Manager Tudor of the bathhouse can give no particular description of the woman, further than that she rented a suit from him. She gave him 50 cents when paying for the suit and he returned her 25 cents. The change was found in one of her shoes.

One of the distinguishing pieces of apparel is a peculiar belt. It is a Japanese chain belt and officers are using this as a clue in their search for the owner.

Conductor Brown of the Pacific Electric Company noticed the woman on his car Thursday morning. She came down from Los Angeles. He cannot remember whether or not she was accompanied by anyone. The peculiar belt attracted his attention.

The clothing consists of a buff colored woolen dress, blue silk petticoat, white blouse and union suit, black shoes, size six, and the Japanese chain belt. The clothing was new and clean but of a cheap grade. There was no hat.

City Marshal Porter has the clothing in his possession.

JOYRIDERS KEEP HOTEL GUESTS FROM SLEEPERS

SAN FRANCISCO, July 16.—J. Flannery, manager of the Hotel Court, has appealed to the Board of Public Works to take such action as would permit his guests to sleep at night.

Flannery wants an electric sign placed at the mouth of the Stockton street tunnel, warning joyriders not to sing while going through the tunnel.

Their songs, he says, keep the Hotel Court guests from sleeping.

Hammocks

Our Hammocks were bought right and you will get the benefit. Prices run from \$3.00 to \$5.50—very fair considering the market. See them anyway.

ORANGE MARKET AFFECTED BY DECIDUOUS FRUITS

Demand For Oranges Slow Because of Fresh Fruits On Eastern Market

The arrival of deciduous fruits on the eastern market is affecting the demand for Valencia oranges, according to the statement of B. A. Crawford, manager of the Tustin Hills Citrus association.

"The cheaper fruit is affecting the market to a considerable degree," said Crawford this morning. The association, however, has regular customers who take all the fruit it can ship out, and the association's chief trouble at the present time is getting cars in sufficient number to meet its demand. It's Tustin house is on the Southern Pacific, and an average of about eight cars a week is all it has been able to get.

Today it is hauling fruit to Santa Ana and loading two cars at the Santa Fe depot. Efforts to secure Santa Fe cars delivered over the Southern Pacific branch at Tustin have been futile, according to the manager.

The association operates a packing house at Francis, the Santa Fe's branch from Aliso to the Irvine boulevard, and has had no particular difficulty in getting all the cars needed for shipping from that point. Citrus fruit from the San Joaquin Fruit Co. and the Irvine ranch is packed here.

The association will handle about 450 cars of Valencias this season. "In my opinion we will have a 70 or 75 per cent crop of Valencias next year," said Crawford, "and the chances are that the growers will get just as much money as for a normal crop. The increase in prices because of the shortage will offset the loss in quantity."

MAY JAIL ANARCHIST CHIEF AT ALCATRAZ

SAN FRANCISCO, July 16.—Alexander Berkman, anarchist leader, recently sentenced to two years in the penitentiary for attempting to incite opposition to conscription, may be transferred to Alcatraz garrison here, to bring him into the jurisdiction of California so that he may be prosecuted on charge of complicity in the preparedness parade bomb outrage.

An indictment charging him with murder in connection with the dynamiting has been returned by the county grand jury, it was learned. It is understood negotiations with the New York Federal authorities for Berkman's transfer are now in progress.

Robert Minor, cartoonist, was one of the witnesses before the grand jury which indicted Berkman.

BRUNTON WILL BE RECOMMENDED FOR CAPTAINCY POSITION

The following letter is from Delbert Brunton, who is on leave of absence from his position as principal of the Orange Union High School while taking the course at the officers training camp at the Presidio, has written the Register the following letter:

"Co. 7, P.O.T.C., 'Presidio, Cal., July 14, 1917. "Editor Register: Mr. Deaver has told me that your columns some days ago told of my having been commissioned a major in the Reserve Corps.

"In view of the fact that I have not been commissioned and very likely will not be so commissioned, I ask that you correct the statement. It would be embarrassing to me to return home and be unable to live up to the brag of that preliminary announcement.

"I came here as candidate for a captaincy and still have high hopes of receiving my commission. Under the law my age permits me to try for a major's commission, only in the Reserve Corps, but the War Department has provided for waiving the age limit and appointing to lower commissions in the National Army. I have been told by my company commander that I will be recommended for the latter status.

"DELBERT BRUNTON."

INSPECTOR OF APPLE PACKING, STATE JOB

SACRAMENTO, July 16.—The State Civil Service Commission has announced an examination for the position of apple packing inspector to be held at Sebastopol, Sonoma county, July 23 and another for sanitary inspector of the State Board of Health to be held August 11.

\$120 PER MONTH LOOKS GOOD TO NINE S. A. MEN

City Council Has Good List From Which to Select Motorcycle Officer

Nine men in Santa Ana are willing to take the "sass" of motorists who violate the speed regulations of the city for the monthly salary of \$120, allowed by the city for filling the position of motorcycle officer.

The City Council tonight will probably select a successor to Horace Cook, who recently resigned because of the condition of his health.

The amendment to the traffic law made at the last session of the Legislature clearing up the situation as to the disposal of the fund collected for traffic violations by a city will not deter the council in providing the city with an officer to keep tab on the motorists traveling in or through the city. The amendment provides that city fines collected must be distributed among the incorporated cities of the county according to population and regardless of whether or not every city maintains a speed officer.

Santa Ana has frequently been charged by autoists arrested with commercializing the law, making arrests more as a source of income than for protection. With the disposition of the funds clearly defined by the Legislature, the city can no longer be accused of conducting a vigorous campaign against speeders and traffic violators for the purpose of gaining an increased revenue.

"The fines, as a source of revenue, have never been considered by us," said J. W. Tubbs, police commissioner of the city, in an interview. "Our one purpose has been to make our streets safe for public travel. With speed maniacs and careless drivers running wild through our city, the lives of our own people as well as visitors to the city are endangered, and we propose to curb this class of drivers as far as possible and make them respect the traffic laws when driving in or through Santa Ana."

Following is a list of those who filed applications for appointment to the position now open:
G. S. Matthews, H. S. Gibbs, C. C. Curry, H. Schuerman, Jr., Perry Ballard, Oliver K. Carr, Tracy O. Fraser, Jack Callahan, George H. Franzen.

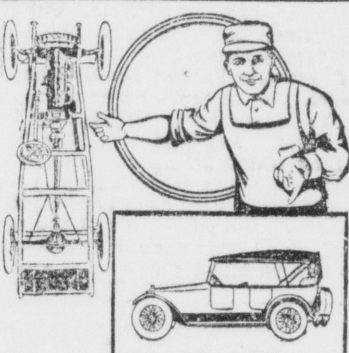

The position pays \$120 a month, the officer furnishing his own machine and paying for its upkeep.
Roy Davenport, who recently resigned his place as county motorcycle officer, has made no application for the city job and will make none.

He still hopes to get a position in the shipyards at Long Beach and if he fails in this he will join some branch of the army service.

WOMEN WORKERS IN JAPAN

Japanese women are not a bit behind their western sisters in entering fields of work hitherto open only to men. A Japanese paper recently did a little investigating and figuring and found that the women of the country are now employed in sixty-four different kinds of work formerly done by men only.
Japanese women are doing railroad work as cashiers, bookkeepers and ticket-sellers. Four thousand of them are employed by the Imperial Railway Bureau. Women are doing extremely hard work in the Imperial Arsenal. Many banks employ them. Although the women are not paid so well as the men, still they share in the semi-annual bonuses of the industrial and mercantile life of the land. They are given their working clothes and lunches in addition to their salary.
Japanese women typists are numerous, and are said to be the best paid of women workers in any of these new occupations.
In professional fields, Japanese women are doing well as journalists, artists, novelists, musicians and teachers. Many women teachers are employed in the government schools and colleges, which is indeed a high honor.

TO READ WILSON

The state papers of President Wilson have made so great an impression on French people, both for their literary form and for their content, that a project has been begun for making him, through his works, actually an interpreter of the American republic to the French people.
The five-volume "History of the American People" by Woodrow Wilson is to be translated by a French professor and author. The introduction is to be written by another eminent French philosopher and publicist. The Paris publishing house that is getting out the translation expects wide sales both in France and in her colonies.
Perhaps Petrograd, where a statue of Lincoln is to be erected, will be the next city to undertake to bring the message of the elder democracy to her younger sister in this way.
It is an honor not only to the author of the works to be translated. It is also an honor to the people whom he has represented and is one evidence of the trust and respect that are so generously bestowed on us as a nation in return for our expressed good will.
We venture to hope that our foreign democratic friends will not stop, however, with the work in question. Woodrow Wilson has grown much since he wrote that history, and has written and spoken a great deal that is more truly representative of our democracy. If he is to be taken as a spokesman of world-democracy, his speeches and papers of recent months should be given first place.
"When is a man patriotic?" is a question that is uppermost in Chicago. It has in its mayor, William Hale Thompson, an official who is a standing enigma. He was elected by an overwhelming majority because he was supposed to stand for "America first," and he gave, sometime ago, the sum of \$25,000 to endow a chair of American patriotism in Lincoln Memorial University. But in practice he has been distinctly and emphatically pro-German. He refused to invite the French mission to Chicago, did not want the British mission to come, opposed the selective draft law, and did not buy a Liberty bond. Is it any wonder that the people of Chicago talk strongly of impeaching him?
The Federal Trade Commission finds no existing reason for the extortionate prices charged for many kinds of food. For instance, canned vegetables sell now for nearly twice the price paid to canners for the year's pack. At this time jobbers are said to be paying the canning factories less than half the amount for canned vegetables that they obtain from their customers. These figures were obtained by the Federal Commission and are official.

Establish Hours of Work For All

New York Evening Post
The state of West Virginia has considered the lilies and returned a verdict of guilty. Its pronouncement making thirty-six hours of work per week obligatory upon each of its citizens outdoes the mild radicalism of the Russian revolution and will go reverberating down the corridors of time. Royal potato patches and hoes, at least those of them not already in operation, will be made ready throughout Europe in answer to this warning. And orchids and green carnations and hothouse growths of all sorts, from Bar Harbor to Palm Beach, will shortly be scurrying about for the less exhausting jobs of night watchman, ticket chopper, life saver and statesman against the time when this new law shall be universally adopted throughout the country.
The question naturally arises in this connection as to how far the West Virginia legislature has gone in developing the details of its plan for raising a blister on the palm of indolence. Has it already defined the term work in a satisfactory manner, so that officials will easily be able to cull all the noxious weeds of inactivity? How is work to be defined? Is it merely anything which one does not enjoy doing, like going to a picnic or being best man at a wedding? Or is it ear marked chiefly by its obligatory character? Children invariably and grown-ups sometimes hate what they must do. Men who will steadily refuse to be longshoremen and rustle kegs and bales for a living, will "tote" seventy pounds of duff and a fifty-pound canoe on their backs, balancing an axe in one hand, against a fishing rod in the other under a blazing sun, with a swarm of black flies biting their undefended necks, and call it pleasure. Surely, Wheeling legislators never intended to encourage this kind of folly. In fact, the amount of useless labor that might be stimulated and legalized, if the compulsory nature of any activity were to be the sole test, would be enormous. On the other hand, utility alone could not entirely determine the matter. Who can establish the ultimate utility of anything? How many apples have fallen uselessly on how many people's noses before Newton discovered gravity? And of what use were poets until discovered by the column writers of the country? Does anything smell sweeter than the bloom of a buckwheat plant, or the savory steam of a pile of buckwheat cakes? In other words, the fact that a thing is ornamental does not condemn it as useless. And the fact that a thing is annoying does not establish its utilitarian nature.

To Preserve Strawberries

WASHINGTON, D. C., July 13.—Specialists in commercial handling and preserving of fruits in the Bureau of Chemistry, U. S. Department of Agriculture, have worked out the following accurate directions (which may be applied also to household conditions) for preserving strawberries so that just enough sirup of the proper consistency can be made in advance. With this amount of sirup the berries can be packed attractively without floating and no sirup will be left over, which in many cases means an important saving in sugar.
Sterilize Jars—While the berries and sirup are cooking, place the empty clean jars and caps in tepid water and bring to a boil, and allow to boil for at least fifteen minutes. Remove the jars from the water only as they are to be filled and the caps only when they are to be placed on the jars. Simply drain jars and caps; do not wipe them. One of the inexpensive jar lifters will be convenient in handling the hot jars.
Sterilizing Rubber Rings—Do not boil rubber rings for any length of time. Just before placing them on the jars dip the rings for a moment into a quart of boiling water into which one teaspoonful of bicarbonate of soda has been added.
STRAWBERRY PRESERVES
Recipe No. 1
Sirup—Add 35 ounces of sugar to half pint of water, bring to a boil and skim.
Preserving—To this amount of sirup add exactly 2 1/2 pounds of washed, capped and stemmed strawberries. Boil the fruit until it registers 222 degrees F. on a candy or chemical thermometer. If no thermometer is available, boil until the sirup is very heavy—about as thick as molasses. Remove sirup from the preserves.
Packing—Fill the sterilized jars full of hot berries. Pour in enough of the hot sirup to fill the jar, leaving as little air space as possible. Put sterilized rings and caps on at once, but do not fasten tightly.
Sterilizing Packed Fruit—Stand the sealed jars in tepid water up to their necks if possible. Bring this water to a boil. Let pint jars stay in the boiling water for at least fifteen minutes and quart jars at least twenty five minutes, then close caps tightly at once. At the conclusion of the operation, stand each jar for a moment on its cap to make sure that the seal is absolutely tight.
STRAWBERRY PRESERVES
Recipe No. 2
The following method is preferred by some because it leaves more of the natural color in the preserves.
To two pounds of washed, capped and stemmed strawberries add 26 ounces sugar, let stand over night. In the morning pour juice thus obtained into a preserving kettle, add berries and cook to 222 degrees F. or until the sirup is very heavy. Pack and sterilize as in recipe No. 1.
Importance of Thermometer in Preserving
The preserving specialists advise those who are going to put up any quantity of preserves to purchase a chemical thermometer which gives readings by degrees Fahrenheit for each degree from 212 degrees up. Equipped with such a thermometer, the preserver can be certain of uniform results. The sirup will not reach 222 degrees F. until it is cooked enough and is of the best preserving consistency. The reason for this is that the sirup will not reach this temperature until the proper amount of water has been driven off by boiling. Such a thermometer is as so very useful in all forms of preserving in candy making, and in other cooking operations where results depend upon exact heating.
The following tested recipe for preserved strawberries is used in the boys' and girls' club work in the northern and western states:
STRAWBERRY PRESERVE
Make a sirup of 1 quart of water and 11 pounds of sugar and cook in an open kettle until a candy thermometer registers 265 degrees when placed in the sirup. Add 8 pounds of berries to the sirup. Cook very slowly, just at the boiling point. Stop the cooking when the thermometer registers 219 degrees and pour into shallow pans to cool. Hasten cooling by pouring sirup over berries. Skim while cooling. Fill into jars when cool and allow to stand unsealed for four days. Put rubber and cap in position, not tight. (Cap and tip, if using enameled tin cans.) If using a hot-water bath outfit, sterilize 20 minutes; if using a water-seal outfit, or a pressure-cooker outfit, sterilize 15 minutes. Remove jars. Tighten covers. Invert to cool and test the joint. Wrap jars with paper to prevent bleaching, and store.

CANNING LESSONS

Save Baby Beets for Winter Use
Now is a good time for garden owners in many sections who have more beets of the early crop than they can eat in the fresh form and an abundance of glass jars and tin cans, to can baby beets, says the United States Department of Agriculture.
How to Can Baby Beets
Grade for size, color and degree of ripeness. Wash thoroughly; use vegetable brush. Scald or blanch in hot water sufficiently to loosen the skin. Dip quickly into cold water. Scrape or pare to remove skin. Pack whole vegetables, slices or cross section pieces in hot glass jars or tin cans. Add boiling hot water until full. Add level teaspoonful salt to quart. Place rubbers and tops of jars in position; partially seal, but not tight. Cap and tip cans completely. Place on false bottom in a vessel of hot water which just covers the containers. Sterilize at boiling temperature in hot water bath canners for ninety minutes.
Drying Beets
If the early crop of beets is abundant but jars or cans are not available, the surplus young beets may be dried for winter use.
TEACHERS' LOYALTY
The San Francisco Board of Education is considering the imposition of a loyalty test for teachers in the public schools. That this is not a bad idea is demonstrated by the fact that a woman teacher confessed a few days ago that the flag meant nothing to her, which was equivalent to admitting inability to teach citizenship, loyalty and patriotism. This teacher has been put out of the schools and any others who hold her views should be promptly separated from their work. At the same time it may not be unprofitable for the school department officials to hark back a year or so to the time they lent ready ear to propaganda, under the guise of patriotism, to delete and dilute text books of the history of the country as to examples of patriotic citizenship.
With Malice Toward None
By Henry James
Taxing the Single
A proposition has been made for the imposition of a heavy tax on bachelors and spinsters.
The first part of the proposition seems to be all right. As a rule the bachelor has avoided through selfishness the carrying of his share of the public burden. As a rule, also, he is free and easy in his ethics, and has been known to prey upon society that he does not help to sustain.
Of course there are good and worthy bachelors, too. There are some who are alone only because they are so unattractive that even the ordinarily willing maid would flee from them with a shriek. These are not to be blamed and yet it is a difficult and delicate task to separate the sheep from the goats, and they will have to take chances.
But as to taxing spinsters, No! The privilege of seeking to emerge from spinsterhood is withheld from them most unjustly, and since it is, society would be in mighty small business in striving to profit from this handicap.

When you take that Trip take a Grip from here
—We're loaded with suit cases and hand bags in genuine cow-hide at before the war prices.
—We're passing the good values along to you.

W.A. Huff Co.

If it is necessary for deriving a certain revenue from the proposed source, get it all from the bachelor.
Severity
The other night the police killed an auto bandit.
Seems a little severe, but everything else had been tried and found to be not effective.
An Exempt
"To many a man the conflict has brought salvation from careless selfishness and hogish quarrelsomeness," G. B. Shaw.
But not to G. B. Shaw.
An Easy Solution
Two young people desired to take a mountain trip, but the woman on whom they had depended as chaperon failed them at the last minute, after the sandwiches were packed.
Did they let the lunch go to waste? They did not. They got married, the actual expense being less than the upkeep of a chaperon for the day, and away they went.

Modesty
"And when the peace leaguers, and the parliamentary unions, and the Hearst papers, shall bring to pass, in God's good time, the great day of peace,"—Excerpt from a Hearst editorial.
What! The papers given only third place in the triumvirate of modesty?
A Bad Bill
Quite elaborately a writer sets forth that there is no emperor of Germany. Then that Bill Hohenzollern is being permitted to put up a pretty strong bluff.
Using Battleships
One genius has devised the plan of putting obsolete battleships on wheels.
Would it not be better to equip them with wings and add them to the aviation corps?
Litigation
Up in Merced county somebody bought an automobile truck and neglected to complete payment, so the vehicle was seized by the sheriff. Ultimately it was sold for \$500, something over \$400 having been due from the original purchaser, but the sheriff sued for more than a thousand dollars for taking care of the property, and he got judgment.
Showing that if a delinquent debtor owes something over \$400 on a truck the sellers of the vehicle could make money by saying to him "Take it and God bless you."

Haircuts
San Francisco barbers are agitating for 50 cent haircuts.
Better go slow, or the bay region will become a community of long-hairs, a class not appreciated in San Francisco.
Handling a Mob
The only way to handle such a mob as disgraced East St. Louis is to turn loose and kill as many as possible.
Trials of gang murderers always are farcical and not worth the cost.
Junk
Germany is very free in bestowal of the iron cross, which is nothing but a piece of junk, and part of the equipment of the junkers.
A Plot Ready to Hand
Complaint is made by a scenario writer that she has been jilted.
There's a plot all worked out and handed to her, and she is kicking about it. Better be reasonable.
Egg Shampoos
War authorities are asking barbers to cease giving egg shampoos.
War or no war, such use of an egg is a shameful waste.
RESERVE OFFICERS' LISTS CLOSE TODAY
SAN FRANCISCO, July 16.—Officers reserve corps enrollment headquarters is receiving the last applications today for the second training camp which is to open at the Presidio in about one month. Although yesterday was the official date for applications to close, the time was extended one day.
On account of the upward trend of fuel and metal prices, now is the time to figure with the Gas Company to heat your house during the coming winter.

FASHION LETTER

BY MARGARET MASON
(Written for the United Press)
In Washington there's much to do; You really cannot nap at all; And everywhere the women dress At social stunts or war work stress, In style that's smart and capital.
WASHINGTON.—In Washington its first reception to foreign commissions after another.
Naturally these social functions have brought out much in sartorial fripperies. Two fripperies brought out are fans and trains.
The first of these are well in hand but the second are not so easily handled.
Nevertheless trains have a large following and fashions stams of approval. In the crush of the reception to the Russian Commissions at the train present had many other stamps besides fashions. It was most upsetting the way large wives of senators and congressmen left their trains around carelessly underfoot to be stumbled over.
The perfect way in which the "First Lady of the Land" managed her train of silver grey chiffon and taffeta leaves no doubt as to her absolute fitness for her position. Managing a train gracefully and adequately requires more finesse, savoir faire, and just plain muscular control, than managing a multitude. Mrs. Wilson did it with one hand, too, between handshakes, while she rhythmically swayed a huge natural ostrich feather fan in the other.
I shall never know whether Margaret Wilson is an adept at train management or not for she kept hers of Nile green charmeuse, slung high and dry out of any possible doormatish contact over a well rounded arm that fluttered a well spangled fan.
Mrs. Tom Walsh's yellow taffeta gown with puffy pannered skirt and tight pointed bodice with terra cotta velvet ribbon garniture was trainless, but her terra cotta feather fan in size and coloring more than made up for any such deficiency.
Mrs. Fred Burton, in purple sequins and net had a feather fan of exactly matching purple flush.
Dining at the Shorham, Alice Roosevelt Longworth in black tulle and silver with shadows under her seductive eyes as dusky as her gown played with her food and a fan of black ostrich.
At a nearby table a beautiful unknown was an exquisite vision in a lingerie frock of shell pink batiste lavishly embroidered in garlands of pink roses. Her drooping leghorn hat had for sole trimming a garland of pink roses arranged across the front of the crown. More pink roses adorned the lady's cheeks but not applied ones.
She looked like "Meet Me in Rose Time Rosie" with variations, and of course she rose with all the others when the orchestra gave forth "The Star Spangled Banner."

Another striking leghorn hat on a lurching brunette at the New Willard had the top of its broad droopy brim covered with pleated black maline that fell over the edge for two inches. A broad band of corn color picot edged ribbon around the crown with a bow in front completed the trimming.
On account of the customary Washington heat white is a favored colorless scheme.
Mrs. Hiram Johnson was a particularly vivacious and chic Phoebe Snow the other day motoring in Rock Creek Park, in embroidered white crepe georgette with a surplice collar of flat lace and a chic little turned up hat of white satin.
I lunched with a multi-millionaire's wife the other day who was gowned in a simple little white voile dress that she proudly announced cost but \$12. She said on account of the war she was limiting her frocks to \$15 apiece and her husband was wearing \$10 suits. This seems to be the sartorial policy of one faction while another equally as strong is preaching more frills and furbelows as a psychological effect of brightening up the mental outlook, relieving tense and strained conditions.
So you can take your stand according to your wardrobe. If you run up an alarming bill at the modistes and dressmakers for elaborate costumes and chapeaux you can quiet an irate husband with the same adequate and elastic excuse that is used by the simple dress advocate who refused to accompany her socially inclined spouse to a soiree because she has'nt an appropriate gown—C'est la guerre. Already they are working the phrase overtime here in Washington.

ARTILLERYMEN MAY BE USED AS INFANTRYMEN

SAN FRANCISCO, July 16.—Omission of mention of men in the California militia in plans for mobilizing the National Guard is causing speculation today as to the possibility of the artillerymen being called into service as infantry.
There is a shortage of infantry in the Nineteenth National Guard Division, to which the California troops belong, and it is pointed out the artillery has full infantry equipment and provisional organization.

IN THE VILLAGE OF SAVY

(NOTE.—The third and last of the William Philip Simms stories from the diary of a French citizen of Savy follows.)
BY WILLIAM PHILIP SIMMS
(United Press Staff Correspondent)
No more passes will be given civilians.
Oct. 18.—Council discusses evacuation of inhabitants.
Oct. 31.—Great artillery combat on. Much thieving going on.
Nov. 2.—Germans intend taking everything, including agricultural implements, nails. Flock of sheep driven past by M. Maurice's shepherd. He said "Here goes 20,000 francs out of Savy."
Nov. 10.—Only three cows left in Savy.
Nov. 14.—Center for ammunition distribution for French on Somme, at Cherisy, blown up by German aeroplanes. I heard the explosion.
Nov. 20.—Mme. Catry fined 40 francs for giving French soldiers (prisoners) coffee.
Nov. 30.—For several days Germans busy destroying M. Gronnier's high wall. They have started on our garden.
Dec. 1.—Germans destroying houses wholesale. About 2 a. m. I heard two loud explosions.
Dec. 12.—German office clerk told me Gen. Joffre had resigned. The Germans held him in high esteem. They said he is a great general.
Dec. 18.—Germans enter houses taking all copper they find.
Dec. 21.—Germans take three large bells from church tower. They made a large opening and let bells fall into street.
Dec. 25.—Nothing remains in Savy. All implements taken. All fruit trees cut.
Dec. 30.—Great flurry and movement to motor cars, lorries, soldiers. Reminds me of market day in the Rue St. Martin.
Jan. 29, 1917.—French aeroplanes bombed Savy last night. Some German motor cars and lorries and soldiers were hit.
Feb. 1.—The Germans say Germany will begin a submarine war.
Feb. 10.—Civilians here and elsewhere forced to cut down all trees. There is a rumor we are to be evacuated from our homes.
Thus ends the diary. The British entered Savy shortly afterwards and found boys and girls of working age, men and women not too old to work, had been deported into Germany. Those who were able danced and sang in the streets so glad were they to be free from the German yoke which had been upon them for over two years.
N. Meyer—Part of lot 5, block 36, Yorba Linda tract; \$10.
Same to W. A. Poteet—Lot 3, block 34, Yorba Linda tract; \$10.
A. J. Warner et ux to Hellman Commercial Trust & Savings Bank—Lot 25, block 20, section 3, Balboa Island; \$10.
F. M. Wisley et al, trustees to Arch W. Craig—Lots 10, 11, 12, block 22, Town of Los Alamitos; \$1200.
Great fog penetrating power is claimed for a new French incandescent light with greenish-yellow glass.

That lightning appears to zigzag is an optical illusion, according to a German scientist, who contends that the effect is produced because the eyes twitch when flashes occur.

Rebekahs Enjoy Interesting Ceremonies Carried Out By Dist. Deputy and Staff

Very impressive and interesting ceremonies on Saturday evening marked the installation of the officers of Sycamore Rebekah lodge, about 150 members and visiting members being present to enjoy the occasion.

The work was put on by Mrs. Alice Hare, district deputy president and her efficient staff, with Mrs. Nankervis, acting as deputy grand marshal. Beautiful bouquets and baskets of flowers were presented to the outgoing officers and degree staff and after the ceremonies refreshments of perfection salad, olives, wafers, ice cream, cake and coffee were served. The tables were prettily decked with Shasta daisies.

Tonight a large number of Rebekahs will attend the installation of Ruby lodge at Orange.

Sycamore's new officers are as follows:

N. G.—Mrs. Florence Crawford.
V. G.—Mrs. Emma Hunton.
Rec. Sec.—Mrs. Hattie Peters.
Fin. Sec.—Mrs. Laura Carr.
Treas.—Mrs. Nora Spradlin.
Warden—Miss Iva Hamilton.
Conductor—Mrs. Edna Gowan.
I. G.—Mrs. May Curtis.
O. G.—Mrs. Elizabeth Jernigan.
R. S. N. G.—Mrs. Emma Chandler.
L. G. N. G.—Mrs. Rose Morrison.
R. S. V. G.—Mrs. India I. Cozad.
L. S. V. G.—Mrs. Sarah House.
Chaplain—Mrs. Mida Branson.
R. A. S.—Mrs. Minnie Klenz.
L. A. S.—Miss Lula Davis.
P. N. G.—Miss Hazel Violet Clark.

FLINN-M'REYNOLDS

Young Couple Weds Saturday Afternoon at Home of Bride, To Live In Los Angeles

Miss Rosalind Pearl McReynolds, daughter of Mr. and Mrs. L. B. McReynolds of West Bishop, was married on Saturday afternoon to Thomas A. Flinn, also of this city, but a divinity student at the Bible Institute in Los Angeles, where the happy couple have come to make their home, after a brief honeymoon at Huntington Beach.

The marriage was a quiet one, only relatives being present. The double ring ceremony was used by Rev. B. Y. Neal, who was the official clergyman.

The home of the bride was prettily and daintily decorated with pink and white carnations and asparagus ferns.

Following the congratulatory period cake and pink and white ice cream were served.

The bride's wedding gown was of white embroidered voile and she carried a cluster of white carnations and maiden hair fern.

Mrs. Flinn has been connected with the Pacific Telephone company here and in Los Angeles, residing in the latter city.

She was the honored guest at a very delightful shower at her home on Friday evening and was the recipient of many beautiful gifts. Games were played out of doors and fruitade and cake were served.

Many good wishes will follow Mr. and Mrs. Flinn to their new home.

Missionary to Speak
Mrs. Mae Chisholm Brown of China, who is well known in Santa Ana, will speak at the Woman's Foreign Missionary auxiliary on Wednesday at 2:30 p. m. in the First Methodist church parlor. Come and bring a friend.

Pasadena and Los Angeles Guests
Mr. and Mrs. H. P. Farrar of South Broadway enjoyed a pleasant all-day visit yesterday from a party of friends from Pasadena and Los Angeles.

They were Mr. and Mrs. W. A. Sullivan and Mrs. Viola Eckert of Pasadena and Mr. and Mrs. Jerry Adams and Mrs. J. G. Banks of Los Angeles. Mrs. L. D. Mitchell of Arkansas City, a house guest of Mr. and Mrs. Farrar, was also in the party.

A noon dinner was a feature and the afternoon hours were pleasantly spent out-of-doors with social chat.

NOTICE
—Lloyd Crane, baker of Honey-suckle Bread, Crane's Pure Milk Loaf and Crane's Cottage Loaf, has sold his business to J. Dalton of Los Angeles. Mr. Crane has felt the need of a long rest from strenuous long hours of work in his bakery establishment and was glad of an opportunity to retire from bread making for the present.

He wishes to most kindly and sincerely express his gratitude to his many friends and customers who have liberally purchased his products and made them more or less famous in this community.

It is also his earnest desire that all will continue to purchase Honey-suckle, Crane's Pure Milk Bread and Cottage Loaf.—Adv.

You will be proud of an Eclipse Gas Range with White Enamel Trimings. See them at the Gas Office.

RECEPTION, SHOWER

Mr. and Mrs. Harry Stuart, Bride and Groom, Welcomed By Friends

A delightful reception and shower were given to Mr. and Mrs. Harry Stuart by their friends at the Delhi school house Saturday evening.

The auditorium was beautifully decorated with quantities of Shasta daisies and ferns and the bride and groom entered to the strains of a wedding march. Standing under a horseshoe of Shasta daisies and ferns, they received the congratulations of their friends, after which a delightful program was splendidly rendered.

The bride cut the beautifully decorated cake and dainty refreshments were served. The young couple received a beautiful set of gold-band china from the father and mother of the groom. Several pieces of cut glass, china, silver, beautiful linen, aluminum kettles, kitchen utensils and many other useful gifts were presented by their friends.

The bride and groom are spending their honeymoon at Catalina and will make their future home at Moorpark, in Ventura county.

Mrs. Nellie Lollaugh of Hemet gave a violin solo. Miss Harriet Owens played with a recitation, "The Woman Across the Way," and Miss Holly Lash sang a solo. Each was heartily encouraged.

PIONEER OF STATE PASSES SUDDENLY
F. H. Raney, known among his relatives and friends as "Doc," died at the home of his brother, J. M. Raney, at Santa Clara Saturday night. His death was sudden, although he has not been in very good health in recent years. He was known to a number of Santa Ana people through frequent visits at the home of his nephew, Walter R. Fine, and with other relatives in this city.

He was one of the few '49ers left in the state who crossed the plains to California with ox teams. He had been a resident of Lompoc, Santa Barbara county, for about thirty years, going to Santa Clara a short time ago on a visit to his brother. Funeral services were held this afternoon.

FREE BOOKLETS
The Register's classified Ready Reference Business and Professional Directory which was printed in the columns of the Register once a month during the past five months, has been printed in a neat booklet of eight pages and cover. The booklet contains about 250 classified advertisements of leading business and professional firms of Santa Ana, Tustin and Orange, arranged alphabetically. These booklets were printed for free distribution and while they last will be given to anyone who calls for them at the Register office.

RAMBLERS WILL SIZE UP PASADENA COURSE
Three members of the Santa Ana Ramblers Bicycle Club will ramble to Pasadena tomorrow to look over the course for the coming race to be held at the Crown City on Saturday, July 21.

The three that will go tomorrow are Robert Gerwing, Jr., George Gerwing and Floyd Mitchell. The coming race is for about fifteen miles and the boys are going to try to land something for Santa Ana.

They have new maroon jerseys with the name "Santa Ana Ramblers" in script letters on the front, with a small red wheel and blue emblem.

LADIES' TAILORING
Special reduced prices until July 20. Have your suit tailored to your individual figure. Select materials and style wanted and have it made by an experienced tailor. Perfect fit and correct style offset the slight difference in cost between a tailor-made and an ill-fitting ready-made garment. Chas. Land, 109 East Third St. Phone 1350.

BUCHHEIM CRAWLS FROM UPSET AUTO UNHURT
John Buchheim, of the San Joaquin ranch, escaped without any serious injury Saturday night when his automobile turned over in a ditch at the intersection of the Dyer paved road with Newport boulevard. Buchheim was caught under the car but managed to get out without assistance.

The rear wheel of his machine was broken when the car collided with a light delivery truck at the intersection. The name of the owner and driver of the truck could not be secured.

Personals

John A. McFadden and family returned yesterday from a ten days' trip to the northern part of the state, including five days in Yosemite Valley. They visited Stockton, San Francisco, Santa Cruz and various other places in the North. Mr. McFadden and Mrs. McFadden are returning to the valley to go by way of Madera and Raymond and Wawona.

Park Ash, who has been absent nearly three months, having been engaged with Bishop & Cole in building a large walnut house at Saticoy, Ventura county, returned home Saturday to remain for a time. Mrs. Ash stopped over in Los Angeles to visit with her sister, Mrs. Cora L. Bower.

Will Jasper is spending a week's vacation in this city, visiting his brother, Merrell Jasper, and other relatives. Mrs. Jasper has been at the home of her parents, Mr. and Mrs. A. E. Hawley, for the past week. Mr. Jasper is now working with Holbrook, Merrell & Stetson, Los Angeles manufacturers of steel ranges.

A. F. Rice and family left by automobile this morning for a month's outing, which they will spend in traveling through California and Oregon. They are equipped for camping out and will take their time in seeing the important sections of the two states.

Leo Kromann, of Los Angeles, is passing a two weeks' vacation at the home of Mr. and Mrs. H. F. Platt of this city.

F. W. Ealer of Orange has made reservations over the Salt Lake for a trip to Omaha, Neb. He will leave tomorrow and goes on business.

D. W. Crozier left yesterday over the Salt Lake for Denver, Colo.

Mrs. M. Hahn and children, Vera, Edna and Marshall, are on their way to Salinas, Kan., having departed over the Salt Lake yesterday.

Mrs. S. Holbrook leaves tomorrow for Grand Junction, Colo., on a visit.

Miss M. Crane, 614 Bush, has made reservation on the Harvard through the local Salt Lake office for a trip to San Francisco.

B. J. Cartrey left this afternoon for San Francisco, going up on the Harvard from Wilmington.

Mrs. O. B. Lollaugh and little Wilma of Hemet, are here for a ten-day visit with Mrs. Lollaugh's parents, Mr. and Mrs. G. P. Hill. They came Friday.

Mr. and Mrs. J. C. Davis and Mr. and Mrs. J. A. Steele and son left today for Weatherford, Okla. The men travelled in an automobile and the ladies went by Santa Fe train. Mr. and Mrs. Steele have been visiting here and Mr. and Mrs. Davis, having sold their home here, are going back to live on their old farm.

Miss Hattie Leonard is spending a week with Mr. and Mrs. W. W. Crozier at East Newport.

Mr. and Mrs. Charles Mitchell spent yesterday at Laguna Beach, leaving their little daughters, Veda and Eleanor, to spend a week with their grandparents, Mr. and Mrs. J. W. Mitchell.

A. C. Hutchinson and son Paul of Winfield, Kans., are guests of Mr. and Mrs. J. M. Bullock of South Birch street. The visitors are wealthy people and may locate in Southern California.

Mr. and Mrs. L. B. Lauderbach, 702 West Washington, left this afternoon for Ithaca, Mich., where they will visit with their son and daughter for six weeks.

Miss Elsie McWilliams of the Register clerical force has returned from a pleasant motor trip to Paso Robles with Mr. and Mrs. Edward Stark.

George J. Hayes, piano player at the Temple Theater, and Ernest Fields, son of Mr. and Mrs. Ike Fields, left this morning for a two-weeks' outing at Rincon Camp and Colbrook camp. Leonard Clark will manipulate the keys of the "pipe" at the Temple during the absence of Hayes.

Miss Ruby Cameron, deputy county recorder, returned yesterday from a trip north, including San Francisco.

Mrs. K. A. Loerch and little daughter were visitors in Los Angeles today.

Dr. I. D. Mills made a trip to Los Angeles today

BEACH FIRST IN LINE WITH FOOD PLEDGES

Women's Council of Defense
Gets Quick Report From
Newport Beach

To Newport Beach belongs the honor of sending in to headquarters of the Woman's Council of Defense the first list of signed food pledges. The list is as follows:

Newport and East Newport, 38; Alhambra, 26; visitors, 6.

The executive committee states that it is deeply grateful to the energetic women of these beach towns for their prompt action and loyal response.

The following letter has been received from Mrs. Seward A. Simons, secretary of the state council, relative to objections to signing the food pledge:

"It has come to the attention of the California Women's committee of the councils of National and State Defense, that some objections have been made to signing the pledges because of the suggestions as to how the food saving shall be made.

"In writing you it is with the intention of trying to relieve any such feeling on the part of women who are conscientious and who, if they sign a pledge, really mean to keep it. Our understanding about the pledges, after communicating with Washington and a talk with Mrs. Josiah Evans Cowles, a member of the National Council of Defense (who has just returned from Washington), is that the pledge applies actually to effort to conserve food and is to be applied to individual circumstances and adapted to them. For instance, if women live

on a farm and have plenty of butter, it would be wasteful to give up using butter and use other fats. Also, if women have invalids in their family, their needs must be catered to as best suits their state of health. The same is true of children who must be fed with proper and nourishing food.

"It is the spirit of the pledge rather than the letter of the suggestions accompanying the pledge. With a little thought and care, it is easy for any housewife to provide a wheatless meal or to provide for a meatless day. The substitutes for meat are so well known that it is hardly necessary to even suggest them. The real object of this pledge and of the effort that is being made now is education. It is to bring home to each woman that her household cannot be considered individually in this crisis. The community idea is to be emphasized that each of us is part of a community, and the whole community taken together is what makes a food problem. But unless individuals are willing to feel the responsibility of helping to solve that problem, we shall never come to its solution. Thought given to conservation of food now may prevent the inconveniences of strict government regulations later. If the war should end today, the food problem would not be solved, and will not be for some years to come, until devastated Europe has had a chance to recover.

"We hope to hear a good report of the success of the food pledges in your county, and thank you for your co-operation in the matter of getting them out."

BIG CROWD WATCHES BATHING GIRL PARADE

SEAL BEACH, July 16.—Moving picture beauties yesterday afternoon paraded in bathing suits over the two miles of Seal Way, from Anaheimheim Landing to Seal Beach. They were watched by more than 30,000 spectators. The procession of feminine beauty, in fetching costumes, passed in review before Mayor John C. Ord, Mrs. Bert St. John and D. W. Callahan, who were the judges.

Three first prizes were awarded, to Miss Edith Roberts, Miss Eva Novak and Miss Mildred Lee. Mayor Ord was invited to kiss the prettiest of the trio, but he declined the responsibility.

Second prizes were awarded to the Misses Margaret Gibson, Hazel D'Arche, Babe Emerson, Dorothy Foster and Betty Mack. Third prize winners were Margaret Huxley, Peggy Owens, Gladys Varden, Nell Christie, Marion Duffy, Hazel Deane, Hilda Russell, Margaret Dracup, Isabel Wagner, Flora Craig, Brownie Brownell, Mary Dolan, Ueale Pathe and Annette Foster.

COUNTY SEALER IS TO HAVE SOME NEW DUTIES

SACRAMENTO, July 16.—All tank wagons used in the state to deliver fuel oil and other petroleum products are to be inspected by county weights and measures officers, according to instructions sent out by Charles G. Johnson, state superintendent of weights and measures.

PLANS FIGHT ON THE TUBERCULOSIS GERM

SACRAMENTO, July 16.—Special medical treatment will be given to all young men rejected for military service because of tuberculosis in an effort to restore them to health, if the plan being worked out by Miss Edith L. Tate, director of the state tuberculosis bureau, materializes.

Miss Tate says she believes that many men who will be rejected on account of tuberculosis can be cured and fitted for service in the army. She is preparing a list of especially qualified physicians for this work.

Dr. Magill, Osteopath, Phone 958-W.

TUSTIN WRESTS FIERCE BATTLE FROM P. E. MEN

Those fans who braved the hot sun and went out Tustin way to witness the ball game between the P. E. nickel grabbers and the Tustin pit swatters yesterday were well repaid for their little journey.

The P. E. teammen looked like winners up until the ninth. Tustin had been donated a paper sack full of goose eggs while the Electric men had broken one and the score stood 1 to 0. But in the ninth Arandel dropped the sack and his teammates helped him finish the breaking. There were four hits and a free pass. That did the damage.

Manager Kizer tried out a new man on the mound but the sun was too hot and he was benched in the middle of the second in favor of "Beck" Lan Franco, the old standby. Becko is surely pitching some baseball and bids fair to come close to making an amateur record at present, having forty and a third innings to his credit.

The fielding of Franklin and Turner were features of the game, both making running catches that might have been good for scores.

The Electric men started operations in the second frame. Thurston, first man, drove a single into the left garden, Carmona safe on R. Mitchell's error, and scored on Callahan's single to center. Lan Franco, then pitching for Tustin, struck out the next two men and held the visitors scoreless.

With only one more chance at the game the Tustin boys went after the Tustin in a hot manner. Arandel opened with another in the same place, Arandel going to third. Emmett followed with a double into the orange grove, scoring Arandel. B. Mitchell walked, filling the bases. Franklin smashed the first ball pitched, scoring R. Mitchell and winning the game.

The score:
1 2 3 4 5 6 7 8 9 R.H.E.
P. E. 0 1 0 0 0 0 0 0 1 5 7
Tustin .. 0 0 0 0 0 0 0 0 2 7 4
None out when winning run was scored.

Batteries—P. E., Thurston, Files; Tustin, Lozier, Lan Franco and B. Mitchell. Umpire, Shedd.

PERSONAL AND SOCIAL NEWS NOTES FROM ORANGE CITY

ORANGE, July 14.—The "Happy Dozen" apricot pitters celebrated their sixteenth birthday anniversary of one of their number, Miss Myrtle Klahn, in a very pleasing manner yesterday noon.

Surgical operations were successfully performed upon apricots from 8 to 12, the surgeons then adjourned to the Keuchel lawn where a picnic luncheon was tastefully spread. Mr. and Mrs. Sam Keuchel and two daughters as special guests contributed largely toward its success with two freezers of ice cream.

After the excellent repast an old-fashioned paday, just like mother used, was fashioned from a suitable board and the traditional chastisement given. As a souvenir of the occasion Miss Klahn secured the autographs of the members of the party inscribed upon the instrument of torture.

Those making up the merry bunch were Misses Myrtle and Arletta Klahn, Goldie Nordeen, Vera Sherwood, Vera Catherman, Merriha Barnes, Meta Rossman, Marjorie Wilson, Louis Grout, Norma Rossman and Ola Otherton, with Mr. and Mrs. Keuchel and daughters, Lillian and Pearl.

Mr. and Mrs. J. F. Stone and mother had the pleasant evening of entertaining in their home. Prof. Long and wife who have featured in so many pleasant events in the last week. Prof. Long is a nephew of Mrs. Stone, who the family has not seen for a number of years. And it is needless to say after the splendid dinner a very pleasant evening was

TERRIBLY SICK WOMAN

Surgical Operation Thought
Necessary, but Lydia E. Pink-
ham's Vegetable Com-
pound Saved Her.

Madison, Wis.—"I was a terribly sick woman for over three years. I suffered with terrible pains in my back and was about to have an operation when a friend said to me, 'Before having that operation just try Lydia E. Pinkham's Vegetable Compound.' So I let the operation wait, and my husband bought me the Vegetable Compound. A table woman and it has made me a well woman and we have a lovely baby girl. We cannot praise Lydia E. Pinkham's Vegetable Compound enough, and I hope this letter will lead other suffering women to try it."—Mrs. BENJAMIN F. BLAKE, R.F.D. No. 5, Box 22, Madison, Wis.

There must be more than a hundred thousand women in this country who, like Mrs. Blake, have proven what wonders Lydia E. Pinkham's Vegetable Compound can do for weak and ailing women. Try it and see for yourself.

All women are invited to write for free and helpful advice to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

spent with visiting and music. Others of the party were Mr. and Mrs. Geo. Long of Olanda, their son, Merl, Mr. and Mrs. Charles Dale and family, all relatives. Later in the evening Claude Porter and Theodore Starkey were added to the happy company. Prof. Long and wife will have many happy memories of their short stay in California, when they take up their new duties in Hilo, Hawaii.

Mrs. Jacob Stein was pleasantly surprised last night by a number of friends, who met at the home to help her celebrate her birthday anniversary. A pleasant social evening was spent and light refreshments were served.

The guest list included Rev. and Mrs. M. L. Pearson, Mr. and Mrs. M. A. Simon, Mr. and Mrs. George Caldwell and family, Dr. C. Stein and family of Kansas, who are house guests of the Jacob Steins; Mr. and Mrs. William Wing and Mr. and Mrs. C. B. Winters of Santa Ana, and Jacob Stein.

Last night a party of young people of the Baptist church motored to Newport Beach where they gave a farewell party in the form of a wienie bake for Arthur Meadows, who leaves Monday to join the Coast Artillery. A very pleasant evening was spent with music and games Mr. and Mrs. Dargatz chaperoned the party.

Miss Francis Scarritt returned yesterday from Los Angeles where she has been spending the last week visiting friends.

Mr. and Mrs. Charles Pister and Mrs. L. F. Robinson and family spent yesterday at Huntington Beach.

Mr. and Mrs. P. I. Bird, Miss Lucile Bird and C. R. Weaver spent yesterday afternoon in Los Angeles.

Mrs. W. G. Chandler returned last night from a two-weeks' visit at Long Beach and Manrovia.

Marshal Warner's son, Arther Warner, is convalescing from a severe attack of pneumonia.

John Irwin's little daughter is ill. Mrs. E. M. Hahn and children leave tomorrow for Salinas, Kan., going from there to Colorado Springs, Colo., where they will remain indefinitely. Mr. Hahn plans to join them as soon as he can properly adjust business matters here.

F. C. Drumm returned last evening from Bakersfield, where he went on business. Mr. Drumm was recovering from an attack of grip and came home with his usual amount of gaiety somewhat "squashed."

Mr. and Mrs. W. T. Syester and Miss Lelah Fernald left this afternoon for a few days' visit at Little Bear, and from there they will go to Big Bear, where they will spend several weeks.

Carl Price, who is connected with the California Pignut Company, returned yesterday from Imperial valley where he has spent the last four weeks attending to business affairs.

Mr. and Mrs. William Knuth and daughter, Miss Marguerite Knuth and Mr. and Mrs. Logan Jackson left today for Big Bear where they expect to spend several weeks.

Mr. and Mrs. P. C. Hilyard and daughter, Ruth, returned yesterday from Paso Robles, where they have been visiting friends for the last two weeks.

Miss Utschel Urschel's sister, Miss Anna Urschel of West Plains, Mo., arrived here yesterday to spend the summer with her sister.

The C. E. Teach family will, on August 1, move to 527 East Maple avenue, to make their home with Mrs. Teach's mother, Mrs. C. C. Myers.

Mrs. Charles Purcell of Los Angeles, formerly of Orange is expected here today. She will visit with the Misses Scarritt and other friends.

Mrs. Peter Goddickson is spending a week at Newport.

A. T. Pearson spent today in Los Angeles.

Mr. and Mrs. L. A. Durfee and daughter Dorothy of Ventura arrived in Orange this morning and expect to stay here for several days visiting former friends. They have an apartment at the Thompson rooming house.

Mr. Durfee was superintendent of the Orange grammar schools for ten years. They moved to Ventura three years ago.

A. W. O'Connor and Prof. Garrity of Huntington Beach were business visitors in Orange today. Prof. Garrity is associated with Tommy Burns, the ex-champion pugilist, in conducting a health resort at the beach.

Mr. and Mrs. Richard Wedge and Mr. and Mrs. William Calloway will spend tomorrow in Pasadena. Mr. and Mrs. Calloway are Mrs. Wedge's father and mother, who are visiting here from Temecula.

Mr. and Mrs. J. L. Copher of Bakersfield came last evening to make a ten days' visit here with Mr. and Mrs. P. Reish of Villa Park, who were former Indiana neighbors of the Cophers.

Dr. and Mrs. J. C. Crawford and children, accompanied by Miss Emma Claypool, went to Banning this morning, where they will pass the week-end.

The Lush Garage reports the sale of Dodge cars to C. C. Eye of North Shafter street, Louis Bortz of Olive and Dan Gruevel.

Rev. and Mrs. W. C. Chew of Clarksville, Ariz., are the house guests of the P. E. Birds. They arrived in Orange yesterday.

P. K. Lush and family of Santa Ana, and W. B. Winton and family of El Modena were Redondo Beach visitors yesterday.

Mr. and Mrs. Wm. Harper, Mrs. Cammack and family went to Arch Beach this morning to be gone for a week.

P. L. Moore drove up today from Long Beach, where he has been enjoying a vacation with his family.

S. B. Edwards and M. M. Fishback left this morning for Big Bear. They will spend several days there.

Mr. and Mrs. Will Krueger, who were married Wednesday, are home after a short honeymoon.

E. G. Stinson arrived home this morning from business visit in Bakersfield.

Charles Dyer went to Los Angeles today to enlist in the Coast Artillery. Mr. and Mrs. J. C. Jacob went to Los Angeles on a morning train.

Mr. and Mrs. W. C. Waechter will spend this week-end in Los Angeles.

H. J. Schroeder of Los Angeles called today on business.

For trip to Long Beach, San Diego or anywhere, call 399-M. Big, easy-riding Franklin car.

Why aren't you still using old lamps? Keep up with the times. See the Gas Lighting display at the Gas Office.

HORSES ARE STOLEN FROM RANCH CORRAL ON S. MAIN STREET

Thief Drives Boldly In, Ties
Three Animals to Rear of
Buggy, and Goes

Saturday night soon after midnight a buggy was driven into the corral of V. A. Robertson's ranch on South Main street, and when it drove away a few minutes later three horses belonging to Robertson were led away. That was the theory upon which Robertson and deputy sheriffs proceeded in making a search of a wide territory for the stolen animals, but were without success. Today the horses were located here.

Robertson's ranch, known as the Boyd place, the last house on the left before the south end of Main street is reached being upon the place, is rented to Japanese. The Japanese said they went to bed soon after 11 o'clock, and the theft occurred after that.

The horses were found running loose and were brought to the pound by Lipscombe, rancher. The sheriff thinks the horses were turned loose as a joke on the Japs.

GOING TO INQUIRE INTO JITNEY RATES

Investigation Will Be Con-
ducted to Establish Rules
and Regulations

The Railroad Commission today determined to institute an investigation into the rates, rules and regulations of the jitney and auto truck lines subject to its jurisdiction. A hearing in this matter will be held before the commission on June 25, at 10 a. m. A second hearing will be held at San Francisco on Wednesday, August 8, also at 10 a. m.

It is the purpose of the commission at these hearings to secure information and suggestions from the auto bus men and all interested parties, upon which the commission may formulate rules for the operation of these carriers. These rules, when established, will cover such matters as quality of service, time schedules, filing of bonds, etc. In order that all parties may be represented, the commission has sent notices to all jitney and auto truck operators subject to its jurisdiction, and to all railroads, boards of supervisors and city councils.

The jitney bus and auto truck lines subject to the commission's jurisdiction are defined in chapter 213 of the laws of 1917 as being "every corporation or person, the lessees, trustees, receivers, or trustees appointed by any court whatsoever, owning, controlling, operating or managing any automobile, jitney bus, auto truck, stage used in the transportation of persons or property as a common carrier for compensation over any public highway in this state between fixed terminal or over a regular route and not operating exclusively within the limits of an incorporated city or town or of a city and county."

JAP TRIES TO RACE ON TRACK WITH TRAIN

FULLERTON, July 14.—An unidentified Japanese is congratulating himself upon his narrow escape from death under the wheels of a Santa Fe train. The Japanese was driving a team of horses drawing a big wagon south on the road between Placentia and Richfield.

The train, westbound, neared the crossing just as the Japanese started across the tracks. The engineer whistled a warning and the Japanese, who the engineer said had been lying down on the wagon seat, roused up.

Becoming confused, the Japanese, instead of whipping the horses up and hurrying across, turned the team up the tracks in the direction in which the train was traveling.

When the horses reached the cattle guards a short distance up the tracks, they turned off the right of way. One of them lost its footing and fell, dragging the second horse clear of the track and leaving only the bed of the wagon in the danger zone.

The Japanese jumped before the engine struck the wagon, tearing one side away.

WHAT CALIFORNIA FOLKS SAY.

Pasadena, Cal.—"I want to extend to you my heartfelt thanks for the benefits derived from the use of your medicines for the kind and good advice obtained. I am a proud mother."

"I had been a great sufferer; three times I was given up to die—the last time being four months ago. I doctored with several doctors but obtained no relief. Was told that an operation would effect a cure, so I submitted to one, but this proved, like all the medicines I had taken—not beneficial. I obtained, and started at once taking 'Favorite Prescription.'"

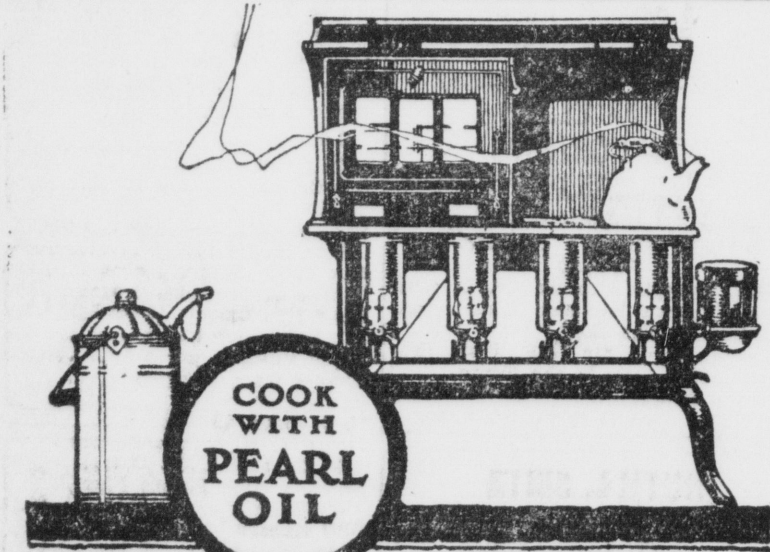

"Four months ago the doctors and nurse said it would be a year or more before I would be able to do my housework, and, of course, I thought so myself as I was not able to walk across the floor for several weeks. I am now able to do all my housework and to care for my children and I do not feel as though I could ever thank you enough for the benefits I have received.—Mrs. MADEIRA KIPP, 184 South Pasadena Ave.

The New Discovery for Kidneys, Rheumatism and Backache.

Send 10 cents with name of this paper, to Dr. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., for a large sample package of "Dr. Pierce's." It will convince anyone suffering from kidney, bladder, backache, that it is many times more active than lithia, and dissolves uric acid in the system, as hot water melts sugar, besides being absolutely harmless. It preserves the kidneys in a healthy state by thoroughly cleansing them. It clears the heart valves and checks the degeneration of blood-vessels and regulates blood pressure.

ECONOMY

An oil cook-stove is cheaper to buy than a wood or coal stove and it's much cheaper to operate. Meals in a jiffy, and a cool kitchen in summer.

All the convenience of gas—economical for all the year 'round cooking. Bakes, broils, roasts, toasts. Steady, evenly-distributed heat, the best for cooking.

AT THE COURTHOUSE

SIX SUBJECTS
OF KAISER NOW
CITIZENS HERE

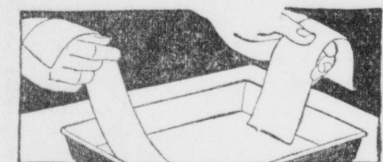

Majority of Those Naturalized
In Court Here Today Were
Born In Germany

Germany lost six former subjects this morning when ten applications for citizenship of the United States were granted by Judge West. Of the ten newly-made American citizens, six were born in Germany, one in Austria, one in Russia, one in Sweden and one in Luxembourg.

Today was naturalization day in Judge West's court, with Federal Naturalization Examiner Handy in charge of the quizzing.

Each applicant present with two witnesses was carefully examined as to his attitude toward the United States. Each applicant who was born on German soil was questioned particularly as to loyalty to Germany's present government, and in each instance it was declared that the heart of the applicant is with the United States as against Germany.

Those granted citizenship today included Misses Pauline and Therese

Developing and Printing

Here's Where Our Skill
Helps You

In developing and printing your film we keep before us the fact that you have spent considerable time and money in making the exposures—and that it is strictly up to us to get out of the film all you put into it.

We are rather proud of our ability to do this. Try us on your next exposures.

Our stock of Ansco Cameras, Speedex Film and Cyko Paper is fresh and complete.

Reinhaus, for many years prominent in business circles in this city where they conducted one of the leading millinery stores of the county. They were born in Germany.

Others granted citizenship today are: Emil H. Heidecke, rancher, resident of Orange, native of Germany; Henry Zutt, missionary, of Anaheim, Germany; Daniel G. Elstie, rancher of Orange, Germany; August Piepenbrink, retired farmer, of Anaheim, Germany; James Movich, rancher of Anaheim, Austria; Emil Larson, tailor of Santa Ana, Sweden; Bernard Hartfield, jeweler, of Anaheim, Russia; Gerard J. Hocksmith, chef, of Seal Beach, Luxembourg.

The applications of James Carter, Jorgen N. Johnson, Roger H. Variele, Otto J. Dargatz and Leonard Schmid were continued, some of them not appearing for examination today.

Raises Question

An interesting point was raised in the petition of Adolph F. Pegel of Orange. Pegel was present with his witnesses, Fred Van Hagen and F. W. Struck, when inquiry developed that while Pegel was born in Germany he came to this country when 3 years old. Soon afterward his father died, unaturalized. His mother then married an American citizen, and by that marriage his mother became a citizen. Would Pegel's citizenship follow his mother's and his step-father's? In order to get a ruling from the department upon the question, Pegel's petition was continued.

The question was brought up today as to whether or not a citizen of Germany who has applied for citizenship since war was declared can now become a citizen was brought up. The examiner stated that under a law passed in 1912 the petition could not be granted until after war ends. The procedure to be followed by Judge West in those cases as they come up will be either to dismiss the case or continue it to January, 1919. In case of a continuance, should war end, the order can be set aside and the petition heard at once.

Enters Protest

Today there was filed with the Board of Supervisors a protest from George T. Kellogg of Yorba Linda against the proposed formation of Road Division No. 2. That division as planned is to improve a number of streets at Yorba Linda. Kellogg stated that his property will be assessed although none of the improvement work will be done on Orchard drive; leading to Kellogg's ranch of fifteen and a half acres. Kellogg says that the scheme is largely furthered by lot owners whose assessments will not be over two per cent what Kellogg's assessment will be. He says that there are a number of property owners at Yorba Linda who are, as he is, subject to draft, and who are dubious as to financial possibilities. He says that since the finished, three months on the Mexican border he knows the impossibility of meeting ranch expenditures without having an income to draw from.

Soaked Him \$50

G. O. McClunge, driver of a San Diego-Los Angeles stage, was fined \$50 this afternoon by Justice Cox. McClunge was driving on first street near Tustin when he passed an automobile going the same direction that he and a wagon in front were going. Meeting an automobile, McClunge dodged back of the wagon and passed it to its right. Deputy Sheriff Cravath saw the stunt, and arrested McClunge forthwith.

INDIAN WORKMAN,
74, SEEKS TO ENLIST

WASHINGTON, July 16.—Quana Washosha, Comanche Indian, has a medal the Kaiser once gave him for expert marksmanship. This won't keep him from trying some of that shooting ability on the Kaiser's "graybacks," however. The redskin's American name is Captain Henry B. Hicks. He visited President Wilson and tendered his services to the government. "I'm 74," he said, "but I can shoot as straight as ever."

IN THE JUSTICE COURT

FIND CLODS IN
BLACKBERRIES
SOLD HERE

Newhope Jap Is Up Against
Complaint Brought By
County Sealer McPhee

Of all the tricks that are vain, the Japanese berry grower who sold blackberries in Santa Ana pulled off the A No. 1 trick.

In the bottom of each box of blackberries were one or two clods half the size of an Orpington hen's egg.

Looking upon the box casually one would say that the berries were just ordinary blackberries. They passed from the Jap to one of two of the stores and to several peddlers and to some of the housewives. Altogether the Jap sold twenty-five or thirty crates of the berries, and so far as County Sealer George McPhee has been able to learn every box was ballasted with hard earth.

"What is it? Dynamite?" asked Justice Cox when McPhee showed the judge what was at the bottom of a box. "A German bomb?"

The complaint charges K. Watanabe, a Newhope Japanese, with misdemeanor, which misdemeanor is that blackberries were mixed with a material that is cheaper than blackberries, to-wit: Dirt.

Pays a Fine of \$3

W. P. Heniger of Santa Ana paid a fine of \$3 to Justice Cox after pleading guilty to having travelled in an automobile at night without having the automobile properly equipped with lighted lights.

For Non-Support

Deputy Sheriff Maxwell and Eells arrested a Mexican lemon picker named Gorgonio at Villa Park Saturday on a charge of non-support of his family. The charge was brought in Los Angeles, to which place the man was taken.

Charges Carelessness

Today Roy Noble swore to a complaint charging "John Doe" Wollenberg of Tustin with careless driving. Noble stopped on Main street to fix a tire. He says he looked to make sure his rear light was burning, and found it burning. He says that Wollenberg ran into his machine. No one was hurt. Both machines were damaged. Noble stated that the number of the machine that struck his was 77,370, registered as belonging to Pauline Wollenberg, Tustin.

Embezzlement Charged

Dave Combs, manager of the Lodge Cafe at Seal Beach, was arrested last night on a charge of embezzling \$3,243 from the estate of Mrs. Helen G. Roach, deceased. Combs has been a prominent figure at Seal Beach since its incorporation. Mrs. Roach, who lived in Los Angeles, was one of the incorporators of the Lodge Cafe. Since her death her estate has been in charge of Harry E. Roach, administrator.

The complaint against Combs was sworn to by L. T. Mayhew, a Los Angeles man, who is manager of the National Board of Credit. Mayhew stated this morning that another complaint would be sworn to charging Combs with disturbing the peace. Combs preliminary examination was set for 2 p. m., July 24.

Sentenced to Jail

Amelio Lopez, who wanted to marry Rosa Acosta, whose husband died Friday, was today sentenced to ninety days in jail. Lopez was taken away following the death of Acosta, his cousin. When the woman refused to marry him he chased her with a knife.

SOLDIER'S BODY
FOUND AS U. S.

(CONTINUED FROM PAGE 1)

men here," said one of the men today. "There will be great suffering at home."

"According to the United Press correspondent's informant, some families left behind have as little as \$2. Few had over \$25, according to official survey made here.

Another heretofore undisclosed feature of the situation made public through the army "census" was that there are few Germans and Austrians in the number interned. Most of the foreign element is Mexican, with a scattering of Poles and Serbians.

Flat refusal of an offer made by Sheriff Wheeler of Bisbee to permit two of the exiles to return marked the first indication that Bisbee has in the least relented in its determination to keep the I. W. W.'s out. This incident was revealed here when Alfred Valenzuela and Andres Mendosa announced the sheriff had sent them tickets to return to Bisbee. They prefer to stay here, where they "are safe."

Camp Comfortable

Conditions in the camp are comfortable for the exiles as camp comfort goes. Food is wholesome and shelter adequate, and the department of the men is said by army officials to be excellent. No sign of impatience as to what the final outcome of their "internment" will be has yet been shown by the exiles.

GERMAN MONEY MOTIVE
IN GLOBE GROWING

GLOBE, Ariz., July 16.—Additional weight to the rumor that German money is behind the I. W. W. disturbances which have disrupted Arizona mining districts the past few weeks was thrown into the balance here today when twenty I. W. W.'s were taken into custody while boarding an outgoing train turned out to be well supplied with money. Each man had an average of \$800. Authorities

here think this supports the German money theory.

ALL I. W. W.'S IN KLAMATH
COUNTY TO BE JAILED

KLAMATH FALLS, Ore., July 16.—Every I. W. W. in Klamath county will be arrested, Sheriff Humphrey announced today, as a result of a fire which yesterday destroyed the mill and elevator of Martin Brothers with 25,000 bushels of wheat. The loss is estimated at \$150,000.

The city today is practically under martial law. Armed guards patrol the streets and deputies are guarding railroad property and the mills.

Immediately after the fire Sheriff Humphrey swore in 200 special deputies and raided the I. W. W. headquarters. Thirty-nine I. W. W.'s, some of whom are believed to be local leaders, were arrested and a large amount of correspondence and literature seized.

Federal authorities today are taking a hand in the situation.

DISASTROUS MOJAVE FIRE
IS LAID TO I. W. W.

MOJAVE, Cal., July 16.—I. W. W. incendiaries actuated by the motive of revenge is ascribed today by authorities as the cause of the destructive fire which swept Mojave yesterday, wiping out most of the business section, and perhaps fatally burning one man, Postmaster Otto Haize.

With one arrest, J. O. Day, already made, officials are centering their probe today on the I. W. W. Day is said to have admitted starting the fire, claiming it was accidental. He fell downstairs with a lighted lamp in his hand, he asserts. The blaze started in the office of the Mojave Press.

A high wind drove the flames from the newspaper building to adjoining business blocks. The efforts of the volunteer fire department proved unable to control the flames.

Hardly had the first started until local officials started search for Day, who had been given temporary employment by the owner of the Press, William Evans. With his arrest following shortly after, enough evidence had been gathered to force a confession of his responsibility for the blaze.

Destruction of the oil pumping stations and the ruin of Mojave was the purpose of the fire, according to Officers Hamilton and Hayne. The men have been very active in driving I. W. W.'s from Mojave, and point to this as the basis for their theory of revenge.

U. S. PROBES HINTED I. W. W.
ANGLE IN FLAT RIVER IOT.

ST. LOUIS, July 16.—The labor situation in Flat River mining district was generally quiet today, following the arrest of J. H. Overall, confessed

leader of the rioters, who, Friday night, stormed the homes of the foreigners, driving Russian, Italian and Polish miners into the woods and later out of the town.

Additional troops will leave St. Louis this morning. There are remaining members of troop B and battery A, who were away on leave of absence when the two entrained for Flat River Saturday night.

Business men and mine superintendents in Flat River generally scout the theory that I. W. W. leaders incited the riot, but it became known today that agents of the department of justice are in Flat River, investigating the cause of the trouble, working on a possible theory that German agents or I. W. W. organizers were responsible.

An investigation will be started at Farmington, the county seat, today, under the direction of Circuit Judge Peter Hock of St. Genevieve.

There was a small outbreak at Bonne Terre, another mining town near Flat River last night when the homes of several foreigners were looted, the mob stealing money from many of the homes. Leaders of the self-styled "American" miners claim that crooks, who joined the miners, committed the robberies.

Major Stepp, in command of the militia, said that he believed the situation well in hand. It is estimated that one thousand foreign miners have left the district, many of them leaving their families behind. The miners claim that foreign laborers were imported by the mine owners at less wages. None of the mines in the district is operating today. Saloons are closed.

Two Russians, wounded by bullets, arrived here today.

U. S. DOCTORS BATTLE
HOOK WORM IN BRAZIL

RIO DE JANEIRO, July 16.—Through the efforts of Dr. Charles Seidl, director of the Public Health department, and Drs. Lewis Wendell Hackett and George Stone of the Rockefeller Foundation, the government has given the American institution free hand to wage a campaign on the "hook worm" in the interior of Brazil.

The percentage of inhabitants of the outlying districts afflicted with this disease is high, according to health department officials.

Creditable work has already been done by the American physicians and it is believed the proposed campaign will be of inestimable value in the stimulation of agricultural enterprise.

'COT PRODUCERS
SUFFER LOSS
BY WAR

Pits Worth Just Half What They Were Last Season

The war will touch the pocketbooks of every apricot grower in Orange county, for because of the war they will get only half what they received last year per ton for their apricot pits.

Where they were paid \$50 per ton last year they will get but \$25 per ton this season, and the buyers are not particularly anxious to get them at that price, according to Wm. Smith, local representative of the Guggenheims. Last year's prices ranged from \$45 to \$50, the latter price being paid toward the close of the season.

With the apricot crop short last season the buyers were able to handle all the pits, some being used by United States concerns and some going to Germany. With the United States now an enemy country the product cannot be shipped. In the foreign country the oils and acids were extracted.

The unusually large crop this season and the fact that there are only two plants in the United States that can handle them has had the effect of lowering the price. One of the plants is located in Southern California—National City, near San Diego—and the other at New York. In the opinion of Smith, it will be doubtful if the two can handle the entire pits products of the apricot growing centers.

"I have contracted for more than 50 per cent of the pits in Orange county at \$25 per ton," said Smith this afternoon. "I am still buying and will continue to buy until my firm advises me to the contrary. The tonnage this year will be greatly in excess of that of any previous year."

Don't can fruit over a hot wood stove. Use Natural Gas. If your house is not piped call the Gas Company and they will estimate the cost of piping and equipment complete.
